Please join PhET this **#GivingTuesday** and give the gift of science and math to millions of children around the world.

It takes a village to build quality open (that is, free) education resources. And that's what PhET Interactive Simulations at University of Colorado Boulder (<http://phet.colorado.edu>) has been doing since 2002. We work hard to make science and math fun and exciting -- and accessible for everyone.

But we need your help! If you're an educator, parent, student, STEM supporter or a company, please consider giving to one of our new crowdfunding campaigns. Any amount helps - minimum donation is \$10.

Choose one or support both!

Build the "Teach with PhET" website:

Help us build the "Teach with PhET" website that will support teachers in your neighborhood and around the world...making it easier to use PhET sims.

Goal: \$500,000 (or ~20,000 people giving ~\$25 each).

Bring Circuit Construction Kit to the iPad:

Help us publish the next-generation of one of our most popular simulations (used over 1 million times a year!), the Circuit Construction Kit DC. Your support will move this simulation to iPad and tablet compatibility using the latest HTML5 software technology.

Goal: \$50,000 (or ~2,000 people giving ~\$25 each).

Consider not only donating yourself but **also spreading the word**.

- **Post** on Facebook and Twitter
- **Forward** this email to your listservs, schools, colleagues, and friends
- **Post** on your website
- **Share with others** this effort of making learning science and math more fun and accessible to children - at home and around the world.

Thanks for being part of our STEM village this holiday season!

Your PhET Team,

Ariel, Bryce, Carl, Chris, Emily, Jesse, John, Jonathan, Julia, Karina, Kathy D, Kathy P, Linda, Mike, Noah, Oliver N, Oliver O, Robert, Sam M, Sam R, Steele, Stephanie, Trish, and Yuen-Ying
